

GLUTEN AT OX184

We've designed the following menu to help you choose dishes based on your own special relationship with gluten. **Our Kitchen Policy** We prepare all of our dishes fresh to order in the kitchen and while we make every possible effort to avoid cross-contamination of ingredients, we would like to advise you that this is not a factory production environment and we cannot guarantee with absolute certainty that your dishes will not have come into contact with any wheat based products.

For those with milder gluten intolerances.

Some dishes, while not containing any gluten in their ingredients, are cooked in our fryers. Unfortunately whilst our fryers are cleaned and filled with fresh oil regularly, they will also have been used to cook wheat products during a service. The following dishes should be avoided if this level of cross contamination will affect you. We are happy to substitute fries for a side salad.
